City. One facilitation partner.

Coimbatore Is Outdoor-Ready And Largely Unclaimed.

Tamil Nadu's second-largest city is a manufacturing, textile, IT and education hub with dense daily commuter traffic and a fast-growing base of D2C, retail and Web3 brands looking for cost-efficient visibility, but the city has no dedicated, tech-enabled car branding operator on the ground.

CrypVorex bridges that gap — bringing Conekt Ads' verified, tech-enabled inventory model to Coimbatore through an existing fleet relationship, with full on-ground execution and accountability.

-  Local facilitation ensures routes can be adjusted to a brand's priority zones

What 500 Branded Cabs Could Deliver.

Indicative projections, scaled from Conekt Ads' own published campaign benchmarks (e.g. a 100-vehicle auto branding campaign reaching 3.2M-3.9M people over 27-30 days). Final numbers depend on routes, formats and campaign duration, and would be validated during the pilot.
